CERTIFICATION

FRONTEND SIMPLIFIED GRADUATE

November 2025
FES Institute

SKILLS

React	Next.js
JavaScript	Tailwind CSS
HTML	TypeScript
CSS	Git
Vercel	GitHub
Vite	Firebase
Figma	Firestore
UI/UX Design	

LUCAS HAWTHORNE

FRONTEND DEVELOPER

WORK EXPERIENCE

FRONTEND DEVELOPER INTERN – [SKINSTRIC AI \(2025\)](#)

- A sleek, modern website, built with **React**, **Javascript**, **HTML**, and **CSS** best practices. Purposed for Skinstric AI, a skincare company utilizing AI.
- Maintained version control with repository branches and pull requests for each module/feature, establishing efficient and organized code management.
- Takes users through a seamless facial analysis process and offers photo capturing and uploading features, providing AI-predicted results.
- Utilized **Figma** to understand Skinstric AI's design and end-goal.
- Deployed with **Vercel**, offering 99.9% uptime.

PROJECTS

FRONTEND DEVELOPER

August 2025 – Present

A list of some of my projects. All of my deployed projects can be found in my portfolio (see contact link or QR code). **Blue underlined texts** are clickable links:

- [Ultraverse NFT Marketplace](#): An online NFT Marketplace that boasts a comprehensive array of NFTs, deals, and authors over an eye-pleasing layout, with the data fetched through multiple APIs. **React : HTML : JavaScript : CSS**
- [Netflix Clone](#): A Netflix clone that presents numerous arrays of current films based on different criteria. Displays respective movie trailers upon selecting a film, utilizing multiple APIs. **React : HTML : JavaScript : CSS : Firebase**
- [React Book Library](#): An online library that boasts an impressive catalog of books, displaying their images, ratings, and prices fetched through an API. Allows for sorting based on price and rating. **React : HTML : JavaScript : CSS**
- ["Reelz" App Movie Catalogue](#): A movie browsing website that features a plethora of films using multiple APIs with chronological sorting functionality. **React : HTML : JavaScript : CSS**
- [Treact \(React Templates\) Website](#): A simple site to test my ability to clone another front end application. Replicated everything including assets, animations, features, and responsive design. **React : HTML : JavaScript : CSS**

Non-tech skills: Creative Writing, Leadership/Management, Customer Service, CRM Data Management, Microsoft Office/iWork/Google Workspace, Content Creation, Communication, SEO, Marketing/Advertising, Website Analytics/Metrics

Prior non-tech-related work experience/resume available upon request. Experience includes, but isn't limited to: restaurant management, retail, administration, sales, construction.

Fun facts: Magazine-published writer of 10 years, MMA practitioner, wannabe kitchen connoisseur, expert fire extinguisher, has a positive digital footprint (yes, I do appear on Google)
